

Sajjad Ali

Software Developer & Frontend Developer

+92 318 5215900 | sajjadali786sj@gmail.com

linkedin.com/in/sajjad-ali-6b0546382 | Rawalpindi, Pakistan

PROFESSIONAL SUMMARY

Final-year BSCS student with hands-on experience in full-stack web development and AI-driven applications. Contributed to a team-based Final Year Project integrating deep learning with modern web technologies. Passionate about building efficient, user-focused software solutions and eager to grow within a dynamic development team.

TECHNICAL SKILLS

Frontend HTML5, CSS3, JavaScript (ES6+)	Backend Python (Flask), PHP (Laravel)
Database MySQL, SQL	AI / ML MobileNet V2, Model Integration
Tools Git, GitHub, VS Code	Soft Skills Teamwork, Communication, Marketing

PROJECTS

Hairstyle Recommendation System Based on Face Shape

2024 – 2026

Final Year Project (FYP) • 4-Member Group • PMAS Arid Agriculture University

- Built a web-based application that detects a user's face shape using MobileNet V2 (deep learning model) and recommends suitable hairstyles.
- Developed the frontend using HTML, CSS, and JavaScript for a responsive and intuitive user interface.
- Integrated Flask (Python) as the AI/ML backend API and Laravel (PHP) for the main application logic and database management.
- Collaborated in an Agile 4-member team, contributing to design, development, and testing phases.

EDUCATION

Bachelor of Science in Computer Science (BSCS)

2022 – 2026

PMAS Arid Agriculture University, Rawalpindi

FSc (Pre-Engineering / Pre-Medical)

2019 – 2021

Superior College, Rawalpindi

Matriculation (SSC)

2017 – 2019

Taleem ul Quran Boys High School, Rawalpindi

ADDITIONAL EXPERIENCE

Marketing & Outreach

Freelance / Personal Projects

- Experience in digital marketing including content creation, social media management, and audience engagement strategies.
- Strong interpersonal and communication skills developed through outreach and promotional activities.

WHY THIS ROLE

This Software Developer role at Rawalpindi aligns perfectly with my skill set — HTML, CSS, JavaScript, Python, SQL, and backend frameworks. My FYP gave me real-world experience integrating AI models with web applications, and I am eager to apply these skills professionally while continuing to grow as a developer.
